## PLAGUE BRINGER

*Life Songs In A Land Of Death*

## THE PITCH

**PLAGUE BRINGER** is a duo from Chicago whose music is an assault of programmed bulldozer blast beats, de-tuned stabbing guitars and savage animalistic vokills, yielding a relentless blend of spastic electronic carnage. Their concoction of metal is uncompromisingly brutal yet as groovy as a pop song. Following the bands 2005 acclaimed debut - *As the Ghosts Collect the Corpses Rest* - comes the product of two years of nail biting writing...the brilliant *Life Songs In A Land Of Death*.
